**Special DanCham Member discount of 40%**  
**from now until September 30<sup>th</sup> 2017!!!**

## SOLID WOOD - SOLID FURNITURE

The international tradition of Loft furniture includes recognizable metal features that can be found throughout the industrial scene, conjuring imagery from shipyards and harbors to high-rise construction and warehouses, elevator shafts etc.

Danish Loft Design Co. designs and produces high-quality, solid wood furniture! We balance the well-known LOFT style with Danish design characteristics like simplicity and functionality.

Danish Loft Design carefully chooses the wood types we offer in our products. We have a wide selection of woods, which have different characteristics and looks. Our wood products are made in either solid planks or in beautiful joint woods to create larger surfaces to match your requirements. Combined with our high quality powder coated metal pieces, you will end up with a furniture which is very unique, personal and will follow you in many years to come!
